Project Midpoint Demo Specs

Proficiency
 □ Clear and concise written summary of current status □ Schematics of all breadboarded circuits □ Block diagram of system components and the interfaces between them □ Hardware demo functioning (potentially with some minor bugs) □ More than 25% of the way to the final deliverable □ Clear description of microcontroller routines □ All external parts ordered
Excellence
\Box All interfaces in the block diagram defined (e.g., SPI, I2C, GPIO)
☐ Hardware demo functioning well
☐ Writing is well organized
□ Solid grammar or spelling issues (no more than a few minor errors which do not detract from the point).
☐ Completed riskiest element of the project
\square More than 50% of the way to the final deliverable
